DETAILED ACTION

Election/Restrictions

The applicant filed a response to election/restriction on 04/27/06. In it, the applicant elected Species I directed to Figure 1 and stated that claims 1 and 4-19 are believed to read on the elected species. However, upon careful consideration, the examiner finds certain problems with the elected species, which will be clarified below.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 4-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims don't seem to read on the elected figure 1. For example, claim 1 discloses an image forming apparatus with a plurality of contact point portions as well as a container stand with a plurality of contact terminal portions. This is well illustrated in figure 8 where an image forming apparatus (reference 800) has a plurality of contact point portions (figure 8, reference 910) which come into contact with contact terminal portions in the container stand (figure 5, reference 958a-c). However, in the elected figure 1, the image forming apparatus (reference 800) does not have contact point portions which contacts contact terminal portions in the container stand. Rather, the image forming apparatus comes into contact with a battery charger 900, which then comes into contact with the container stand. This is different than what is

claimed in claim 1. In the examiner's opinion, Species II directed to figure 8 is the species that should have been elected. However, since the applicant has elected Species I, this 112 rejection is necessary because it is not clear how figure 1 shows an image forming apparatus with contact point portions which contact contact terminal portions in the container stand.
